DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-15 of Application 10/604382 in the reply filed on 5/14/2004 is acknowledged.
2. This application is in condition for allowance except for the presence of claims 16-19 directed to a device, which is non-elected without traverse. Accordingly, claims 16-19 have been cancelled.

Allowable Subject Matter

3. Claims 1-15 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:
 - ...implanting said conformal oxide film with a first dopant impurity to form a first dopant impurity region;
 - forming a set of spacers atop said conformal oxide film, said set of spacers are adjacent to said gate region;
 - removing portions of said conformal oxide film, not protected by said set of spacers to provide an exposed region of semiconducting material;
 - forming raised source/drain regions on said exposed region of said semiconducting material;
 - implanting said raised source/drain regions with a second dopant impurity to form a second dopant impurity region; and

activating said first dopant impurity region and said second dopant impurity region, whereby source/drain and source/drain extension regions are formed in said layer of semiconducting material, as required by claim 1.

Lastly the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:

...activating said doped oxide film and said second dopant impurity region, whereby source/drain and source/drain extension regions are formed in said layer of semiconducting material, as required by claim 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
